About HomeCo:

HomeCo is a manufacturer and wholesale supplier which specializes in Kitchen and Bath products. We offer high-quality materials at an exceptional price rate to distributors, large scale developers, builders, and general contractors. HomeCo was founded back in 2005. Today, we own and operate manufacturers across Malaysia, Taiwan, and China.

HomeCo focuses on the manufacturing and distribution of cabinetry, countertops, and sinks. We currently have distribution in California and we are looking for distributors across the nation.

Our goal is to better serve our customers who are looking for products and materials in large scale projects and distributions at manufacturer price points without the hassle of dealing with present difficulties. We eliminate the risks and challenges of the language barrier, miscommunication, middlemen, different time zones, and seeking liabilities. These issues often cause incorrect products, inaccurate specifications, and delivery delays, which result in a more costly transaction for the buyer. At HomeCo, we will help you with your inquiries face to face, working in your time zone, and with no language barrier. Customers will also have greater peace of mind knowing that all products are backed by HomeCo's warranty.

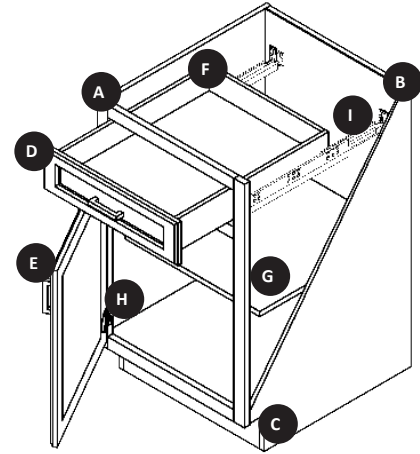

HomeCo is the home of the kitchen and bath depot.

FRAMED AMERICAN STYLE CABINET

What is an American Style (Framed) Cabinet?

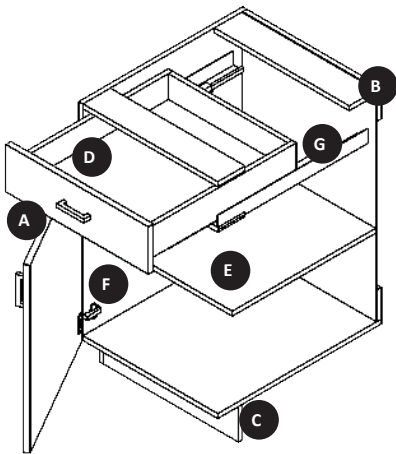

American cabinet manufacturers have traditionally built cabinets using a framed construction. In this type of cabinet construction, the rails and stiles form a 3/4 inch face "frame" at the front of the cabinet box. This frame resembles a flat picture frame attached to the door front, adding dimension to the door front. The cabinet doors are secured to the edge of the frame, which gives the cabinet strength and sturdiness.

HomeCo's American Style cabinets are made of solid wood doors, face frames, and drawer faces with plywood construction cabinet boxes. The wood-dominant feel of the cabinets will bring your kitchen an elegant and timeless effect. To increase storage space efficiency, Our face-framed cabinet does not come with a center stile, allowing easier accessibility than other face-framed cabinets in the industry. HomeCo's face framed cabinets offer both traditional and contemporary designs.

- A 5/8" Solid wood box frame

What is a European Style (Frameless) Cabinet?

Frameless cabinet construction is a European way of manufacturing cabinets that has become popular among American homeowners seeking simple and more contemporary cabinet designs. Frameless cabinetry is sometimes called "full access" cabinetry because it offers greater accessibility by eliminating the face frame. Instead, it relies on thicker box construction for stability. Only full overlay doors can be used, with hinges attached directly to the sides of the cabinet box.

Our European Style line of cabinets offers flat panel door styles with a variety of color selections from solid gloss colors to textured wood grain colors. We use high-quality 3/4" thick solid plywood for cabinet box construction to ensure maximum durability. European Style is great for achieving a more modern, simple yet high-end look in your kitchen and bathrooms.
